✓ Relocating to Poland: Spring 2027 (Feb–Jun)

⭐ PRIMARY FEATURED PRODUCTION APPLICATIONS

1. CineLog — Movie & TV Series Tracking Progressive Web App (PWA)

✓ Live in Production

React • JavaScript / TypeScript • TMDB REST API • Mobile-First PWA • Vercel Deployment

A full-featured movie and TV exploration application designed for cinephiles. Features real-time API queries, fluid bottom-sheet mobile navigation, custom diary watchlist logging, and responsive dark-canvas styling.

- **Architecture & API Integration:** Interfaced The Movie Database (TMDB) REST endpoints with asynchronous error handling, media poster caching, and search debouncing.
- **Mobile PWA Fidelity:** Built with mobile-first touch ergonomics, gesture support, responsive typography hierarchies, and offline manifest metadata.
- **Live Deployment:** Configured automated CI/CD deployment pipelines on Vercel with zero downtime.

🔗 **Live Demo: https://cinelog-phi.vercel.app/?tab=explore**

2. Poland Internship Hunter & Outreach Automation Desktop Application

Desktop App & CRM

TypeScript • React • Tailwind CSS • SQLite • Electron Desktop Shell • Nodemailer SMTP • Google Gemini API

A multi-process Windows desktop CRM engineered to automate European curricular internship discovery, candidate-company fit scoring, personalized email generation, and rate-limited direct SMTP outreach for Polish tech firms and game studios.

- **Explainable Fit Scoring Engine (0–100):** Implemented multi-factor heuristic matching comparing student coursework against company tech stacks, locations (Kraków/Warsaw/Gdańsk), and academic dates.
- **Multi-Provider Discovery:** Live query parsers for Greenhouse, Lever, and Ashby careers boards with scheduled background checks and polite rate-limiting intervals.
- **Local Persistence:** Full relational SQLite database architecture with 14-stage Kanban tracking and tamper-evident audit logging.

💼 TECHNICAL EXPERIENCE & INSTITUTIONAL SYSTEMS WORK

Hospital Misericórdia de Vila Verde

May – Jun 2024

IT Systems & Database Support Intern

- Audited and updated clinical databases ensuring data integrity across hospital departments.
- Authored technical procedural documentation and standard operating manuals for clinical software.
- Diagnosed hardware, network, and application troubleshooting tickets with zero error tolerance.

Câmara Municipal de Vila Verde

Jun – Jul 2023

Database & Information Architecture Intern

- Audited municipal supplier records and citizen databases, eliminating duplicate entries.
- Restructured data registries to accelerate record lookup speeds for civil service departments.
- Assisted in setting up workstation configurations and network peripheral diagnostics.

📁 ADDITIONAL REPOSITORIES & COURSEWORK HIGHLIGHTS (IPCA)

Other Repositories on GitHub: `RetiroInterior` (Full-stack web application), `StockVault` (Inventory and asset management system), `ACRIALBI` (Multimedia web portal), `koenigsegg-site` (Interactive automotive design showcase).

Technical Tooling: Git/GitHub, Figma, VS Code, Linux & Windows Admin, Relational SQL, REST APIs, TypeScript, React.
